

## Environmental and Social Review Summary ("ESRS")

## Primus Capital COVIID-19 Mitigation Financing Partnership / Project 12343-02 – Chile

Original language of the document:SpanishIssuance date:October 2021

- Scope of Environmental and Social (E&S) Review: Primus Capital S.A. is an existing client since 2018. The review was based on the assessment of previous information from the 2018 transaction (12343-01), the latest 2019 Annual Environmental and Social Performance Report and conversations with the client.
- 2. Environmental and Social Categorization and Rationale: The proposed Project seeks to support factoring and financial leasing operations with SMEs in Chile and Peru originated by Primus Capital, a non-bank financial institution and existing client since 2018 with satisfactory E&S performance. The largest factoring and leasing transactions to be supported include: Construction (21%), Commerce and Services (38%), and Housing (12%), among others. In addition, given the average value of the operation to be US\$180,000, with a tenor of 67 days, the operation overall is considered to be low risk. Per the IDB Invest Environmental and Social Sustainability Policy, Primus Capital has been categorized as FI-3.
- **3.** Environmental and Social Risks and Impacts: The E&S risks are considered minimal given the proposed use of proceeds to support factoring and leasing operations among clients.
- 4. Mitigation Measures: Primus will be required to apply basic E&S screening procedures, which will include application of the exclusion list and local law as applicable. Furthermore, Primus will be required to undertake the IDB Invest's on-line training for E&S management and appoint an E&S individual to oversee application of the procedures and address any issues specific to individual sub-loans screening where warranted.
- 5. Environmental and Social Action Plan (ESAP): Not applicable
- 6.
